5 Reasons Why Companies Switch to React

Azat Mardan

Author of React Quickly [Manning, 2017]

What is React?

Main Problem React Solves

Reason #1

Simplicity which allows to reuse code and build large applications

Reason #2

Lower cost of maintenance

Reason #3

Rich ecosystem of components: Sometimes, no coding required

Reason #4

Speed: React apps are blazing fast

Reason #5

Code reuse and isomorphic/universal JavaScript

Reason #6: BONUS

Great for hiring: React stack is cool

Demo

- Component Composition

- State

- Props

```
npm i -g create-react-app
create-react-app clock
cd clock
```
